We know your marketing budget is limited—you can't be at every conference.

The question is, **which conference gives you everything you're looking for?**

When choosing a conference, you shouldn't have to worry about whether you're getting the best value for your marketing dollars. You shouldn't have to wonder if you'll be able to meet the decision-makers. And the last thing you should have to worry about is whether your sponsorship will deliver the acknowledgment you deserve.

You certainly shouldn't have to worry about the conference only taking your money and not giving you equal value in exchange.

At the Executives in Workers' Compensation & Risk Management Conference, our education is targeted to upper and middle management in workers' comp and risk management so that you can meet the decision-makers. We understand your marketing dollars need to go further, so we offer VIP tickets to extend to your best clients to treat them to a day of education as a thank you for using your services. We partner with sponsors to ensure they are recognized and acknowledged during the conference. We are continually looking for every opportunity to elevate you and your services.

Many businesses see conferences as a necessary marketing cost, but we see it as an investment with an ROI. From our last conference survey:

90% of sponsors/exhibitors made solid leads

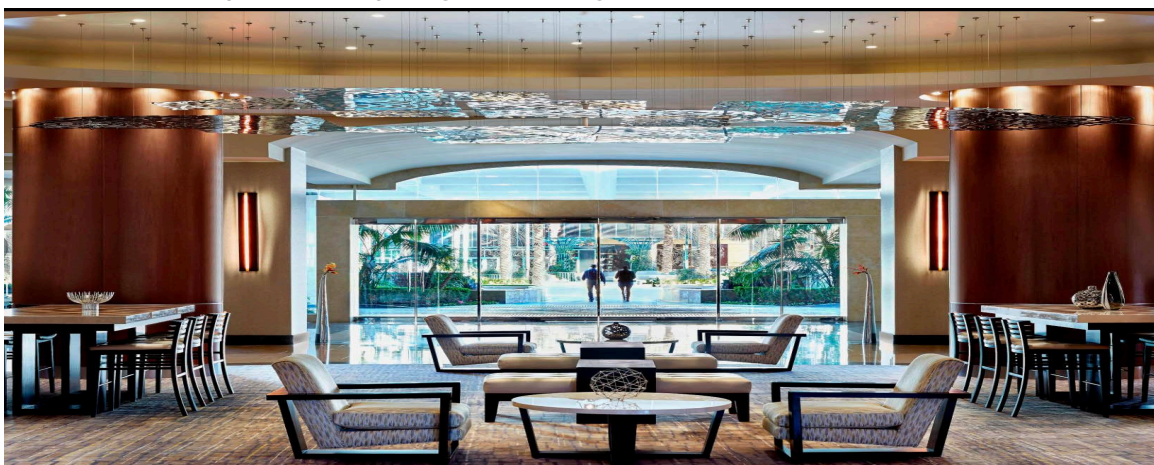

33% of sponsors/exhibitors picked up business

56% of sponsors/exhibitors scheduled a meeting to discuss their service

97% of sponsors/exhibitors said it was THE BEST CONFERENCE THEY HAD ATTENDED

We offer a wide range of sponsor and exhibitor packages so you can choose the option best tailored to your needs.
